7. Statements

**8.MOTION ON ESTABLISHMENT OF CONSERVANCY IN THE COUNTY**

**(BY HON. MOHAMED JIRMO)**

THAT, Aware that Kenya's diverse ecosystem and wildlife are cornerstones of the economy and wildlife conservancies are making a significant contribution to increasing wildlife numbers (including endangered species) and regenerating vegetation in areas that were no longer able to support wildlife and other animals; Further aware that in Kenya, less than 8% of the land surface area is in the state-controlled national parks and reserves; Acknowledging that this is a very small percentage and just not enough to provide a home for all the wild animals that previously were commonly found outside the parks but are now losing their former rangelands and becoming extinct in many places; Noting that established Conservancies have contributed to direct benefits such as employment, market for products and social amenities alongside strengthening social ties and indirect benefits including improved social facilities such as health and education, as well as provision of clean water; Cognizant to the fact that the attitude and perception of community towards establishment of the conservancy depend on the level of awareness about conservation and their involvement; This County Assembly urges the County Executive Committee Member for Tourism ,Trade, Cooperative and Enterprise Development to :-

- a) establish community conservancies managed by the County Government
- b) recruit conservancy scouts to provide security surveillance in the conservancies
- c) Undertake community awareness on the importance of creating Conservancies in the County.
