Mr. Speaker Sir, this document since we own it from today, it goes through the normal process of Members of the County Assembly as a whole will look into the document for number of days agreed by the Committee that can be deliberated on.

Mr. Speaker Sir, after it is committed to the Committee of the Whole House like the normal procedure required by the Constitution; Mr. Speaker Sir, it will go for Public Participation, that is the validation that the Assembly has to do on any document that is tabled before the House. Then after that, the Committee of the Budget and Appropriation by consideration of both the Whole House Committee report and the Public Participation report, will finalize the documentation of those reports and make a final submission for consideration to the House on the date agreed later by the Members. So, the reason way I have stated the following Mr. Speaker, it is my duty to remind the Whole House that we have a very elaborate kind of discussion on this document Mr. Speaker Sir. I urge all Members to take their time and avail

themselves whenever they are required to give their views on this document, Mr. Speaker Sir. Thank you.
